

Come be part of change!

Rise, on behalf of the Disability Services Commission, is working with Organisations to explore and develop better ways to provide ongoing support to families, carers and people with disabilities who may experience challenging behavior.

Interested families and carers of people with a disability are invited to join us at a workshop to look what is working well and areas for improvement when crises occur. Candid feedback will be welcomed as we seek to get a clearer understanding of families and carers perspective – and will be vital to put in place strategies to better support your needs.
