Support Coordination

& Your NDIS Plan

What is Support Coordination?

Support Coordination helps you get the most out of your NDIS plan, to meet your needs and to achieve your goals. Support Coordination is a time limited NDIS support which will enable us to:

Find and connect you with the local providers.

Work with you to understand the details of your plan and what supports you can access.

Reduce administrative costs by setting up service agreements with your providers.

It is what the NDIS calls a 'capacity building' support – designed to give you the skills and confidence to do this yourself in future.

Choosing a Support Coordinator

What to look for when you're making your decision. Someone who...

- Has local knowledge that can help you make the right choices about the service providers available in your area.
- Can provide you with a total commitment to support you and work closely with you to understand your individual needs.
- Their Support Coordination service is funded by the NDIS, so there's no cost to you.

Important Information

To ensure support coordination is included in your NDIS plan, we encourage you to consider a pre-planning discussion with us.

The NDIS will decide if you are eligible for support coordination in this meeting. We are happy to assist you with pre-planning at no cost.
