

Our housing opportunities

We take the time to listen and understand the preferences and goals of every participant so the support we provide truly fits.

What sets us apart

We're a leader in Western Australia in person-centred active support, an evidenced based approach developed by La Trobe University and we're proud to have partnered with them for 10 years.

Active support in action

The pure delight Jodee expressed when she welcomed her little chickens is truly heartwarming. Jodee was supported by Abby to build the chicken coop while she patiently awaited the arrival of her chickens, which she has named Clucky and Frozen.

This is a perfect example of how active support helps build skills and confidence, creating positive real-life outcomes.

Dale was supported by Ryan to have a topsy turvy time at the House Down Under in Cockburn and embraced the experience with confidence.

Dale highly recommends a visit: [House Down Under Perth](http://www.housedownunder.com.au) www.housedownunder.com.au
